

# eTicket + eSign

## Display options

BARD's eTicket + eSign is a paperless ticketing system for construction materials producers and contractors.

Contractors receive eTickets for each load of concrete they receive, and eSign for loads via text or web link. BARD's Material Pro and Material Now apps capture eTicket details, but the apps are not required for the transaction.

Beyond the basic eTicket + eSign functions, there are several optional features that apply in specific situations.

### COD Orders

Product and pricing details can be displayed on eTickets for cash customers. The eSign process remains the same, but the customer will see these details in the eTicket view.

Products			
CODE	NAME	QUANTITY	TOTAL
ERM4500	Eagle4500 PSI mix	10.00 CY	\$1,000.00
CC	Calcium chloride	10.00 CY	\$200.00
ENVSCH	Environmental fee	1.00 Ea	\$50.00
SMLD	Small load fee	1.00 Ea	\$100.00
SUBTOTAL:			\$1,350.00
TAX:			\$135.00
GRAND TOTAL:			\$1,485.00

### Batch weights

Batch weights can be displayed on an eTicket, if they are enabled for the order in the dispatch system. A Producer Admin must also select "Include batch weights" as an eTicketing setup option.

Batch weights				
MATERIAL CODE	MATERIAL NAME	UOM	TARGET	ACTUAL
SAND	Sand	Lb	15,000.00	15,000.00
3/4STONE	3/4" Limest...	Lb	5,000.00	5,000.00
