

BARDPRO DuraCon

BARDPRO DuraCon the next generation of performance concrete product. Designed for ultimate exterior durability in harsh winter climates, **DuraCon** is part of the **BARDPRO Series**, which provides a complete solution for professional contractors and home owners.

BENEFITS

- Place at 5" slump with reduced risk of shrinkage and scaling
- Best performance, saves time and money
- Eliminate freeze-thaw scaling callbacks
- A hybrid performance mix that is durable and finishable
- Reduced permeability to reduce water penetration and chloride ingress
- Add fiber reinforcement to provide through body crack control and plastic shrinkage protection

OPTIMIZED

DuraCon was designed by team of engineers, scientists, and practitioners utilizing **BARD Materials'** years of experience and cutting-edge research methods. **DuraCon** is optimized to provide the best combination of durability, reduced shrinkage, and finishability.

DURABLE

DuraCon greatly reduces water's ability to penetrate concrete, thus reducing damage incurred through freezing and thawing. If you want the best in durability and the peace of mind of a warranty, **DuraCon** is your answer.

COST EFFECTIVE

Over the course of its service life, **DuraCon** is more cost-effective than asphalt and other concrete products because it is more durable and requires fewer maintenance costs. **DuraCon** saves you time and money!

The BARDPRO 3 Step Solution

1 DuraCon 2 DuraCure 3 DuraSeal

Training: the **DuraCon** program requires contractors and ready mix drivers to complete training before hauling and installing concrete. The training program is designed by industry professionals based on ACI and PCA guidelines.

Testing: The **BARD Materials** quality control team consistently tests **DuraCon** to ensure materials performance.

Cure and Seal: The **BARDPRO** system begins with **DuraCon** and finishes with **DuraCure** and **DuraSeal** curing and sealing compons to provide you the ultimate in durability.

A GUARANTEED INVESTMENT.

BARD Materials will warranty your project for three years against surface scalling and spalling if the contractors follows the **BARDPRO 3 Step Solution**. You strive to be the best, so make your next project a **DuraCon** project.
